I certify filling this form with correct informations, and reading the attached document, mentioning the conditions to the support of my research for accomodation:

Place		Date	
-------	--	------	--

Signature:

Conditions to the support of the research for an accommodation:

In order to better help you with your research, and to facilitate our communications with the residences, the Euraxess center informs you that :

- The check-in and check-out dates communicated on the form have to be guaranteed and can not change (except for particular situations)
- The Euraxess center can not guarantee the upholding of the accommodation if the dates are to change – the residence is the only decider.
- Depending on the dates and the budget, the options can sometimes be limited. If several offers are refused, the Euraxess center will invite you to search for an accommodation on your own.
- Before requesting our support in your research, your stay (short or long time) has to be validated by the University. We can not help students whose stay is for now only a project.
